

# SPEEDFUSION BONDING

Access Entertainment, Optimize Bandwidth and Increase Security

- ✓ Bypass geo-locked restrictions with integrated VPN and enjoy a world of entertainment. Elevate your video conferencing, browsing, and streaming experience with the power of **SpeedFusion Bonding and PepVPN** for seamless productivity and entertainment.
- ✓ Set the VPN location to any of the available endpoints; **UK, US(Chicago, NYC or San Jose), Australia, Germany, Spain, Finland, Netherland, Poland or Singapore.**
- ✓ Bond multiple WAN connections; **Cellular, LEO Satellite (Starlink), LAN and WLAN( Marina WiFi and any mobile broadband devices).** Create a fast, reliable and unbreakable connection with ease, even in remote areas.
- ✓ Keep your data confidential and protected from eavesdropping or unauthorized access during transmission. PepVPN technology is a robust and reliable solution to safeguard the privacy of your internet traffic.

## Key Features and Benefits of PEPVPN Technology

**ENTERTAINMENT:**  
Access geo-locked content from anywhere in the world.

**256-BIT AES ENCRYPTION:**  
Safeguard your data against cybercriminals.

**OPTIMIZED CONNECTIVITY:**  
Bond multiple connections for faster speeds, smoother connection and hot failover.

**SPEEDFUSION BONDING:**  
Aggregate multiple internet connections for increased speeds.

**HOT FAILOVER:**  
Switch traffic to another WAN link instantly and seamlessly.

**LOAD BALANCING:**  
Distribute traffic across the available connections based on bandwidth, latency, and reliability.

**FLEXIBLE DEPLOYMENT:**  
30 day rolling contract. Deploy, amend and cancel FusionHub anytime.

**EASY SETUP:**  
Quick and straightforward setup means no downtime.

**NO THROTTLING:**  
No bandwidth limits and up to 1GB/s transfer.
